

RESIDENTIAL DESIGN SERVICE

INFO BULLETIN

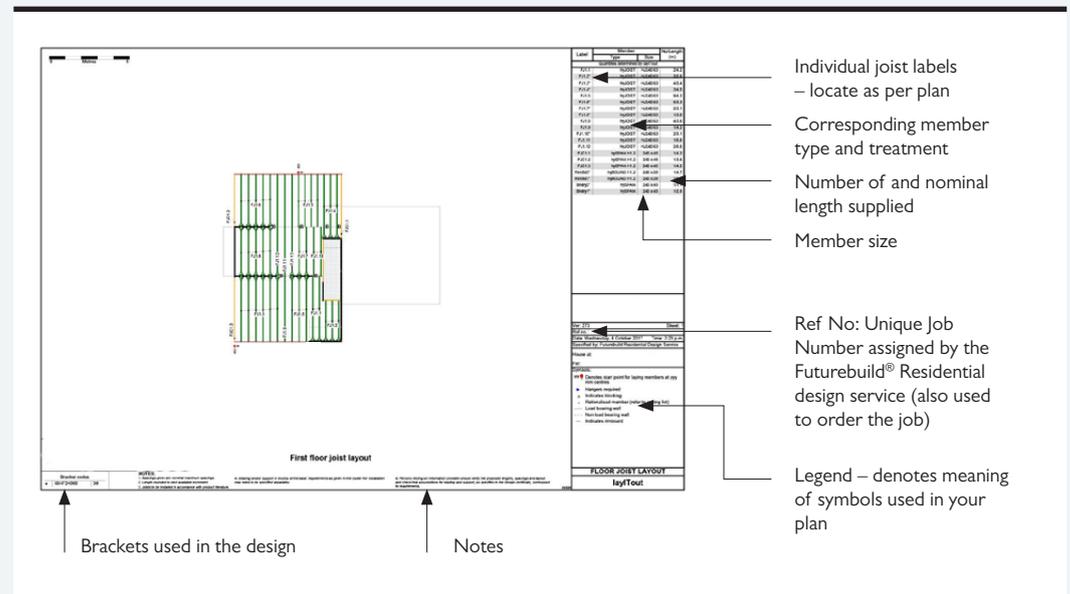

WHAT DO RESIDENTIAL DESIGN SERVICE ORDERS INCLUDE?

The Residential Design Service for Laminated Veneer Lumber (LVL) is used to get your mid-floors and roofing from concept to site fast and as easily as possible. The service includes a design or take off of plans, through to an easy ordering process and kitset delivery to store.

Each order is delivered to store and includes:

- LVL components - nominal lengths, individually labelled
- Proprietary bracketry for floor systems, including fasteners - note, bracketry will be supplied as a separate package
- Waterproof Installation Plans
