

Futurebuild® LVL Products: Specified through computeIT® software solutions

Product Technical Statement

<p>Product Description</p>	<p>The Futurebuild® Laminated Veneer Lumber (LVL) range consists of a range of LVL based products including composite plywood and LVL beams. The Futurebuild LVL range of products features unique, specific material property ‘recipes’ which have been designed to be used as structural components including; Timber Concrete Composite (TCC) Floors, general purpose beams, member and connection design using the computeIT® suite of software packages.</p>
<p>Scope of Use</p>	<p>The computeIT suite of software solutions, have been developed for the purpose of:</p> <ol style="list-style-type: none"> 1. Providing engineering analysis (the determination of design capacities and the generation of design action effects for purlins and girts) of appropriate sizes of structural laminated veneer lumber products manufactured by Futurebuild; or 2. Providing engineering analysis (both the generation of design action effects and the determination of design capacities) of appropriate sizes of structural laminated veneer lumber products manufactured by Futurebuild. <p>Futurebuild LVL members, designed and endorsed by a Chartered Professional Engineer (CPEng) using the computeIT suite of design solutions, are to be installed in accordance with the specifications and installation details provided by the software and the CPEng and traditionally recognised framing practice.</p> <p>Software (‘the software’) covered by this Product Technical Statement;</p> <ul style="list-style-type: none"> • computeIT for beams • computeIT toolKIT <p>The durability of Futurebuild LVL is subject to consideration by the designer for the intended application and should be detailed to meet the requirements of New Zealand Building Code (NZBC) Clause B2 Durability.</p>
<p>Limitations / Disclaimer</p>	<p>Futurebuild LVL members may not be used in:</p> <ul style="list-style-type: none"> • Weather exposed applications <p>Please refer to the current Futurebuild LVL literature for information, limitations, and cautions regarding the storage, handling, installation, usage, and maintenance of LVL.</p>
<p>Compliance with the New Zealand Building Code</p>	<p>Futurebuild LVL, when specified using computeIT suite of software solutions, will, if specified and employed in accordance with the specification and installation requirements detailed by the software and a CPEng involved in the project, assist in meeting the following provisions of the NZBC:</p> <p>Clause B1 Structure: Performance B1.3.1, B1.3.2, B1.3.4(d), B1.3.3 (as applicable to loading)</p> <p>The design properties of Futurebuild LVL were determined in accordance with Clause 2.3 of NZS 3603: Timber Structures Standard (NZS 3603).</p>

Futurebuild® LVL Products: Specified through computeIT® software solutions

Product Technical Statement

	<p>Futurebuild LVL is product certified by the Engineered Wood Products Association of Australasia (EWPAA) as being manufactured in accordance with the joint New Zealand / Australian Standard AS /NZN 4357: Structural Laminated Veneer Lumber (AS/NZS 4357). The EWPAA is accredited for product certification by the Joint Accreditation System of Australia and New Zealand (JAS-ANZ).</p> <p>Structural design is in accordance with AS 1720.1 Timber Structures Standard.</p> <p>Clause B2 Durability: Performance B2.3.1(a) when used and treated to the requirements of NZS 3602</p> <p>Futurebuild LVL is manufactured to meet the requirements of the NZBC Clause B2 Durability. As such, if the product is used in accordance with good building practices, and treated to the required treatment levels prescribed in NZS 3602, it will form part of an Acceptable Solution complying with the requirements of the NZBC (Acceptable Solution B2/AS1, 3.2.1).</p> <p>Clause F2 Hazardous Building Materials: F2.3.1</p> <p>Futurebuild LVL meets this requirement and will not present a health hazard to people.</p>
<p>Quality Assurance</p>	<p>Futurebuild has strict quality assurance processes in place to monitor that Futurebuild LVL is manufactured in a manner that meets both the structural and visual requirements of the specific product.</p> <p>Futurebuild LVL is independently third party audited by the EWPAA. The EWPAA certifies Futurebuild LVL manufactured at its Marsden Point mill.</p> <p>Participation and compliance with the requirements of the EWPAA’s process based quality control scheme includes product testing and monitoring of properties. It provides the basis for the EWPAA’s Product Certification of Futurebuild LVL as conforming to the requirements of AS/NZS 4357.</p> <p>Conformance with AS/NZS 4357 ensures that Futurebuild LVL is suitable for structural applications in accordance with NZS 3603 and AS 1720.1.</p> <p>The EWPAA’s product certification scheme is accredited under JAS-ANZ.</p>

Futurebuild® LVL Products: Specified through computeIT® software solutions

Product Technical Statement

Sustainability	<p>Futurebuild LVL is manufactured from plantation pine grown in New Zealand. It is grown on tree farms which are tended and harvested to provide wood for LVL manufacture and other applications. The crop is managed on a sustainable basis to yield millable trees. New Zealand plantations are managed in compliance with the New Zealand Forest Accord, a voluntary agreement signed in 1991 between New Zealand forest managers and environmental non-government organisations.</p> <p>Futurebuild LVL is manufactured in New Zealand, at the Marsden Point Laminated Veneer Mill. Futurebuild LVL is available Forestry Stewardship Council (FSC) (SCS-COC- 001319) certified upon request.</p>
Installation Requirements	<p>Futurebuild LVL components designed using computeIT suite of software solutions should be installed in accordance with computeIT specifications, installation details prescribed by a CPEng involved in the project and traditionally recognised framing practice.</p>
Service Life	<p>Futurebuild LVL will continue to satisfy the relevant performance requirements of the NZBC for 50 years provided that all of the requirements set out in this Product Technical Statement, the Software and those details prescribed by a CPEng involved in the project are satisfied.</p>
Maintenance Requirements	<p>Futurebuild LVL components will not normally require maintenance. However, in circumstances where coatings have been applied, maintain in accordance with coating manufacturer’s requirements.</p>
Product Support	<p>Futurebuild provides extensive product support for our full range of wood based building products. By visiting www.futurebuild.co.nz you can access all the latest information regarding our products including Product Guides, Specification and Installation Guides, Technical Notes, Information Bulletins, CAD Drawings, Design Software and other useful information.</p> <p>In addition to this Futurebuild have a team of Engineers and Technical Experts available to assist with any product enquiries. You can contact the team by calling 0800 808 131 or by emailing technical@futurebuild.co.nz.</p>
