Product Technical Statement

	<p>accordance with the joint New Zealand / Australian Standard AS /NZS 4357: Structural Laminated Veneer Lumber (AS/NZS 4357). The EWPA is accredited for product certification by the Joint Accreditation System of Australia and New Zealand (JAS-ANZ).</p> <p>Structural design is in accordance with NZS 3603 (verification method B1/VM1, 6.1). Serviceability and other criteria were selected using guidelines available from joint Australian / New Zealand standards technical committees and correspond to those used in NZS 3604, (Acceptable Solution B1 / AS1, 4.1).</p> <p>Clause B2 Durability: Performance B2.3.1(a) when used and treated to the requirements of NZS 3602 and NZS 3604</p> <p>Futurebuild LVL is manufactured to meet the requirements of Clause B2 (Durability) of the NZBC. As such, if the product is used in accordance with the Futurebuild specifications and good building practices, and treated to the required treatment levels prescribed in NZS 3602 and NZS 3604 it will form part of an Acceptable Solution and comply with the requirements of the NZBC (Acceptable Solution B2/AS1, 3.2.1).</p> <p>Clause C Fire Performance: C1 – C6</p> <p>Futurebuild LVL members may be used as part of a fire-resistant solution when used in accordance with GIB® Fire Rated Systems that provide passive fire protection in accordance with the requirements of NZBC Clauses C1 - C6 – Protection from Fire. Refer “GIB Fire Rated systems Specification and Installation Manual”.</p> <p>Clause E2 External Moisture: E2.3.4</p> <p>Futurebuild LVL may be provided treated to the requirements of NZS 3602 when sub floor ventilation and ground cover requirements comply with NZS 3604, Clause 6.14 Prevention of Dampness.</p> <p>Clause F2 Hazardous Building Materials: F2.3.1</p> <p>Futurebuild LVL meets this requirement and will not present a health hazard to people.</p> <p>Clause G6 Airborne and Impact Sound G6.3.1, G6.3.2</p> <p>Solid Futurebuild LVL can be used as a part of framing solutions for walls and floors (Acceptable Solution G6/AS1).</p>
<p>Quality Assurance</p>	<p>Futurebuild has strict quality assurance processes in place to monitor that Futurebuild LVL is manufactured in a manner that meets both the structural and visual requirements of the specific product.</p> <p>Futurebuild LVL is independently third party audited by the EWPA. The EWPA certifies Futurebuild LVL manufactured at its Marsden Point mill.</p>

Futurebuild® LVL Products specified for Residential Applications through Software and Literature

Product Technical Statement

	<p>Participation and compliance with the requirements of the EWPAAs process based quality control scheme includes product testing and monitoring of properties. It provides the basis for the EWPAAs Product Certification of Futurebuild LVL as conforming to the requirements of AS/NZS 4357.</p> <p>Conformance with AS/NZS 4357 ensures that Futurebuild LVL is suitable for structural applications in accordance with NZS 3603 and NZS 3604.</p> <p>The EWPAAs product certification scheme is accredited under JAS-ANZ.</p>
Sustainability	<p>Futurebuild LVL is manufactured from plantation pine grown in New Zealand. It is grown on tree farms which are tended and harvested to provide wood for LVL manufacture and other applications. The crop is managed on a sustainable basis to yield millable trees. New Zealand plantations are managed in compliance with the New Zealand Forest Accord, a voluntary agreement signed in 1991 between New Zealand forest managers and environmental non-government organisations.</p> <p>Futurebuild LVL is manufactured in New Zealand, at the Marsden Point Laminated Veneer Mill. Futurebuild LVL is available Forestry Stewardship Council (FSC) (SCS-COC-001319) certified upon request.</p>
Installation Requirements	<p>Futurebuild LVL members must be installed in accordance with the specifications and installation details provided in Literature and Software, together with traditionally recognised framing practice as described in NZS 3604, and good building practice. The specifications and details are available on the Futurebuild website (www.futurebuild.co.nz) or contact the Futurebuild team by calling 0800 808 131 for information.</p>
Service Life	<p>Futurebuild will continue to satisfy the relevant performance requirements of the NZBC for 50 years provided that all of the requirements set out in this Product Technical Statement and the current Literature and Software are satisfied.</p>
Maintenance Requirements	<p>Futurebuild LVL components will not normally require maintenance. However, in circumstances where coatings have been applied, maintain in accordance with the coating manufacturer's requirements.</p>
Product Support	<p>Futurebuild provides extensive product support for our full range of wood based building products. By visiting www.futurebuild.co.nz you can access all the latest information regarding our products including Product Guides, Specification and Installation Guides, Technical Notes, Information Bulletins, CAD Drawings, Design Software and other useful information.</p> <p>In addition to this Futurebuild have a team of Engineers and Technical Experts available to assist with any product enquiries. You can contact the team by calling 0800 808 131 or by emailing info@futurebuild.co.nz.</p>
